runtttestshiny	<i>Launch ttestshiny Interface</i>
----------------	------------------------------------

---

**Description**

ttestshiny() loads interactive user interface built using R shiny.

**Usage**

```
runtttestshiny()
```

**Details**

Start tttestshiny

The interactive user interface is to provide an easy way for people who are learning ttest. Includes example data for testing out a few example analysis.

**Value**

Nothing

**Examples**

```
## Not run:  
library(shiny)  
tttestshiny()  
  
## End(Not run)
```
